STRENGTHS

- 💡 **Hard Skills**
Technical abilities in various programming languages and software development.
- ★ **Soft Skills**
Effective skills in time management, leadership, and problem-solving.

SKILLS

API · API Integration ·
c programming · CSS · CSV ·
Front-end ·
Full Stack Development ·
Presentation Skills · HTML · Java ·
Javascript · Machine Learning ·
Mathematics · OOP · Python

PROJECTS

- DIAPS – Disaster Information Aggregation Software**
01/2024 - 12/2024
A comprehensive web application for disaster information and weather forecasts.
- Developed a web-based Disaster Information Aggregation Software integrating multiple data sources.
 - Used APIs to retrieve real-time weather and disaster information visualized on an interactive map.

SUMMARY

I am an aspiring engineer and full stack developer with a passion for using technology to solve real-world problems. With a background in Computer Science and Engineering, I have developed expertise in full stack development and have consistently maintained a strong academic record. Committed to continuous learning, I strive to improve user engagement through innovative projects and practical solutions.

EXPERIENCE

- Full Stack Development Intern** 07/2024 - 09/2024
Capable – Elite Techno Groups Remote
- Full Stack Development Intern
- Worked as a Full Stack Development Intern in a remote environment
 - Achieved 100% of required project output
 - Increased user engagement by 10%
 - 75% API integration for data retrieval

EDUCATION

- B. Tech in Computer Science and Engineering** 08/2022 - 01/1970
Mar Baselios College of Engineering and Technology India
- completed an intereship at Capabl India as a full stack developer intern
- GPA | **9.62** / 10
- 12th Grade – Computer Science with Mathematics** 05/2022 - 06/2022
The School of the Good Shepherd India
- GRADE(in %) | **96.4** / 100

LANGUAGES

English	Native	●●●●●	Malayalam	Native	●●●●●
Tamil	Native	●●●●●	Hindi	Intermediate	●●●●●

TRAINING / COURSES

- Java programming**
Learned the principles of Java programming, including syntax and application.
- Python programming**
Covered foundational and advanced aspects of Python programming.

PROJECTS

Contact Management System - JAVA

01/2024 - 12/2024

Robust software for contact management utilizing various data manipulation techniques.

- Created a software solution for efficient storage and retrieval of contact information using advanced data structures.

Python Database Manager - CSV

01/2023 - 12/2023

A Python project for streamlined database management in CSV format.

- Designed a system for managing CSV databases with operations for retrieval, insertion, updating, and deletion of records.
